

SPORT

THE "CUM-BA-CK" BUG
BITES WALTER JOHNSON

GWINN 29

Walter Johnson, pitching hero of many strenuous campaigns for Washington Senators, may return to the mound this season. "Old Barney," as he is reported, will undergo some strenuous training while in the South with the team he is to manage—his old Senators. When Johnson was appointed manager of the Newark team of the International League last season he had fully intended to take his turn at the pitching, but illness prevented him from carrying out any such plans. In much better health this year, he feels that he can get back into condition and win a few more games. He will not try to go into the box often, but his knowledge will still battle many batters. As manager of the Washington team he will have the advice of his former boss, President Clark Griffith and the wholehearted support of the fans of the city to which he devoted his major league career. Baseball follows the work over will wish "Old Barney" every success.

LOUGHNAN AND WALKER
MATCHED FOR MARCH 13

CHICAGO, Ill.—The Illinois boxing commission will sanction the light heavy weight championship bout between Tommy Loughnan, defender, and Mickey Walker on March 13. If Jack Kearns, manager of the middle weight title holder, will meet the commission's requirements, Chairman Paul Freha announced.

Kearns must show the commission certified copies of the contract for the fight. Walker-Alex. Hudkins fight at Las Vegas, on July 4 and put up a forfeit of \$25,000 to guarantee Mickey's defense of his title.

Promoter Paddy Harman today announced he had set up a purse of \$10,000 for the Loughnan-Walker bout which will open the new Chicago stadium. In event Walker wins, Loughnan will get all the purse and Walker only a \$10,000 training expense must be met. But if Loughnan wins, he will get \$100,000 and Walker will receive \$50,000.

PREDICTS NEW RECORDS
FOR PERCY WILLIAMS

Here is what James S. Collins wrote in his "A Voice from the Bleachers" column in The New York World following Percy Williams' record-breaking performance at Newark:

"If there were any doubts that Percy Williams, unbeaten Canadian youngster, is the speediest sprinter extant, he settled them Saturday night when he reeled off 40 metres in 8.4 seconds at the Crescent A.C. games. Running without spurs on an indoor track, Williams negotiated the distance in better time than it had ever before been run, indoors or out. It is doubtful if even this startling time represents the best of which the Canadian flash is capable. He won by three feet, a big margin in a 60-metre race. If pushed by a competitor, Williams probably could do even better, but who, starting from the scratch, is going to push him? By 1932, when the next Olympic Games are held in Los Angeles, Williams will undoubtedly be much better than he was last summer, when he topped the 100 and 200 championships at Amsterdam. The human speed limit, cannot yet be fixed. Six and four-fifths seconds for the 60 metres seems like the human speed limit. So did seven seconds flat when Al Krausnick set it nearly thirty years ago on an outdoor track. Williams, under the same conditions, ought to be able to break it indoors, but in doing so he probably will set a record that will stand much longer than Krausnick's did."

WILLIAMS HAS EVERYTHING

Arthur Duffy, whose name will never be forgotten in track and field doings, writing in the Boston Post pays high tribute to the Vancouver schoolboy, following his brilliant performance in Boston. Here are a few paragraphs from his summation of Percy Williams: "Young Williams is entitled to all the honours that are being thrown his way. He proved himself a real champion if ever an athlete did. Modest and unassuming to a fault in his demeanor, he has won a warm spot in the hearts of all American sprint lovers. This young kid, and he is nothing more in the vernacular of the sprint-running game, came unheralded and unnamed as an indoor performer to Boston. He had never run on boards before. He did not have the least conception of what that really means. He did

not pick his feet to the ground, he would race of his own accord, and would set a record for himself. He was a contender and he was a champion. He was the sportsman's champion."

"And what was that? That is, his confidence in his own ability to win any form of human being in a sprint race. He knew that he had beaten the world in the Olympic games at Amsterdam in both the 100 and 200 metre event when even given a chance, so why shouldn't he beat any runner, whether it was an amateur, cinder or what not?"

"Don't underestimate young M. Williams in the sprint line in the future, whether it be indoor or outdoor or outdoor racing. He is the class of the world just now. I do not know anyone who can beat him. I can run 40 yards against the pick of our runners, what will he do when he gets outdoors next running season?" Charlie Paddock was a great outdoor performer, perhaps the greatest ever. So is Frankie Wykoff, the Glen Dale high school boy from California. Charlie Borah and some more I might mention. But Paddock could not show his ability indoors. He was a poor starter. Wykoff has yet to show what he can do indoors. Borah is a good indoor performer, but not at the shorter route—300 yards in his distance. Percy Williams has everything."

FOUR MILLIONS FOR
NEW YORK GIANTS

MIAMI BEACH, Fla.—The dream of the late Tex Rickard—an outdoor star in New York City who had converted into a mammoth stadium dedicated to boxing—is nearer reality than ever during the lifetime of the famous promoter.

An offer of \$4,000,000 for 75 per cent. of the stock in the National Exhibition Company, controller of the New York Giants in the National League, has been made the three principal owners of the company by the directors of the Madison Square Garden Corporation. The offer was taken under consideration by Charles A. Stoneham, President of the company, Francis X. McQuillan, former Treasurer, and John McEwra, manager of the team, after a discussion here with William F. Carey, new controller of the Garden affairs.

Although Carey refused to confirm all the details outright for fear that publicity would spoil the deal, news of the negotiations leaked out following a conference here between Carey and McEwra, who flew to Miami Beach from Havana and left the same night to lay the proposition before Stoneham in New York. The three own all but one-quarter of the stock in the company, the other largest block of 20 per cent. being purchased recently by William Kenney, close friend of former Governor Alfred T. Smith, of New York.

Another deal, in the event that all three of the principal stockholders fail to accept the first proposition, involves the purchase of 51 per cent. of the club from Stoneham for \$2,000,000.

"The proposition of buying into the Giants for \$2,000,000 has been submitted to me, but nothing as yet has been done on it," Carey said in a telephone conversation with Garden officials in New York. "I expect when I return to New York to give the matter my immediate attention. The situation has interesting possibilities."

A meeting of the Board of Directors of the Garden Corporation has been called for March 5, when all members of the board will have returned to New York. It was said here. Plans for purchase of the club contain the clause that McEwra shall remain as manager of the team.

RUTH CHASES DEMPSEY
OUT OF THE RING

"Babe" Ruth has decided to stick to his job as house-rum blitter for the Yankees. Not that he had ever entertained any thoughts of severing connections with Col. Ruppert's pet Yankees. He boxed two years at Jack Dempsey for a Kew-Ford benefit at West Palm Beach, and though he was credited with a draw, the "Babe" afterward divulged that the roped ring held no lure for him as a principal. The mighty "Babe" and the ex-champion, billed in an act along with Broadway celebrities in a charity program, put on a sparkling performance and proved that they were artists of all trades. The capers were enthusiastically received. The "Babe" went under a handicap of wearing two right-handed gloves. Incidentally, Ruth was the first man to

chase Dempsey out of the ring. He came out for the last round armed with a baseball bat, and Dempsey promptly slipped through the ropes in heavy retreat.

PROMISING TROTTERING STAR

ORLANDO, Fla.—One of the best liked two-year-old trotters in training at Seminole Park is owned by a leading breeder of thoroughbreds, C. B. Shaffer, who owns Coldstream Farms near Lexington, where Payroll's brother, man of war, and the French stallion Put au Feu, are in the stud. This is the bay colt, Main Elwyn, son of the champion colt trotter Mr. McElwain, 1:59 1/4, out of Ruth Mainboath, a daughter of Mainboath, 2:05 which raced to a record of 2:08 in the stable of Tom Murphy some years back. Main Elwyn is in the stable of Ben White who drove his sire in all of his races. Shaffer visited his track lately and White stepped the colt for his benefit, trotting two furlongs in 31 1/2 seconds, the unbeaten two-year-old trotter of 1926, raced by White, who has her in his stable here and is preparing her for a campaign against the aged stakeholder of the Grand Circuit. While Paula McElwain, trotted a quarter in 23 1/2 at week, many of the railbirds here favor the colt and he is one which will be named in all of the important junior events for the coming season.

Some years ago Coldstream Farms harbored a lot of Standard bred horses with Bergen, 2:06 1/4, a stallion ranked by his record by the late "Pop" deurs, at the head of the stud. Shaffer closed out the major part of his standard bred holdings but retained Ruth Mainboath and a few others. In spite of this he has Ruth M. McElwain, which set a record for winners by a two-year-old trotter, and now it looks that he has secured another star in the son of Mr. McElwain. Ruth M. McElwain was given a vacation from training in 1928 and has grown and filled out remarkably. White is confident that she will stage a comeback the coming season and be a big factor in the important stakes for the class trotters of the Grand Circuit.

The adoption of the money winning system of handicapping prevents her getting in many of the most valuable stakes, she having annexed over \$25,000 in stakes when she was a two-year-old.

BETTER SEED

BETTER YIELDS — BETTER GRADES — BETTER PRICES

A special committee appointed by the Minister of Agriculture, with the cooperation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain

In order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can cooperate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Board of Trade, the Wheat Pool, Banks, Commercial Grain Firms, the press, and many other organizations are working in cooperation with a

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

SCHOOL FAIR

This year the Annual Strathmore and District School Fair will be held on September 12th and 14th.

The attention of teachers and pupils is drawn to the following resolutions: "All school work must be in the hands of the Secretary by June 30th."

Besides the scholarship offered by the Department of Agriculture, the local association has decided to offer a similar one to the boy and girl standing the highest number of points for school work, provided this reaches the equivalent of five first-prizes.

The following special prizes have been received, for which the School Fair Committee wishes very sincerely to thank the donors: E. W. Moyer, Edmonton, basketball; Christie School Supply, Brandon, football; H. Hiras & Son, Calgary, jewelry; Calgary Herald, \$5.00; Calgary Albertan, six months subscription; U.F.W.A., Strathmore, \$2.00; Women's Institute, Strathmore, \$5.00; Strathmore Town Council, \$5.00; A. M. Terrill, Florist, Calgary, plant or fern; F. M. Crowe, Calgary, \$5.00 mids; Mason & Bish, Calgary, \$5.00 mids.

THE SAYINGS AND DOINGS OF MANY PUBLIC MEN

Idid: "Sam got a Shillun, and Joey got a skippy, and Jack got zumat, too."

Swift: "It politics I am saro it is even a Machiavelli way maxim. That some men should be ruined for the good of others."

Artemus Ward: "The fact can't be no longer disguised that a Krysia is into us."

Sidney Carton, about to be guillotined: "Tis a far, far, better thing than I have ever done."

Mackenzie King challenged Mr. Bennett to produce proof that United States papers and periodicals, as well as speeches of public men, indicated a war spirit directed against Great Britain. The prime minister said that the Conservative leader had made this charge in the house recently.

Mr. Bennett replied that he had not said what Mr. King alleged. The authority for the remarks he had made could be found in reputable magazines and newspapers of the United States.

"Will my friend give me the names?" Mr. Bennett asked. He had on his desk a number of clippings from reputable newspapers in the United States "in which these matters are so freely discussed." The Conservative leader added that Mr. King "need not manifest such haste." He "need not become so scarce in his desire to apologize to the country to which he is so greatly attached."

"I am making no apologies for any one except my honorable friend," said the premier.

Mr. Bennett remarked that the prime minister's attitude "was hardly in accordance with those principles of peace which he so loudly proclaimed. May I venture to say that it is wholly lacking in that calm reason which should characterize the preparation for this peace pact?"

J. J. Deuchman, in referring to the reduction in the Dominion government expenditures for 1929, said: "The year has led to a decided decrease in interest now paid on the national debt. The reduction in debt last year has led to a decided decrease in the interest payments this year. Money that was formerly spent upon interest can now be spent upon creative enterprises."

Total expenditures seem tremendous at first thought, but these things must be considered against the background of the times in which we live.

I Saw Last Week

ANSON CHASE, very much surprised when a telegram began to arrive at his home on Friday night and his "Dad" having the time of his young life throughout the evening. LLOYD HUTCHESON of the Chilliwic Restaurant stepping on the gas when the John Deere hockey guys arrived and ordered twenty-four tea-bone steaks. ALF. CARLSEN cooking "Bisk" to go to work, but the latter said he had an important appointment with "Dad" White. JACK BENNETT all dolled up visiting J. Van Tighem, Cash Emporium. FRED J. DUNN explaining to T. E. Wright how the Calgary Oil Exchange is cluttered up with work these days and how some of the local boys are picking up some easy money through the Oil Kings. A. A. BOTSFORD, of Langdon telling about all the good things that are going to happen at the Langdon School Fair, and also that the Langdon baseball team will make "Eck Peters" of Peter of Canada and the Strathmore Stars look like selling papers. Langdon is sure going to have a real team in 1929. JOHN C. DAVIS, of the Strathmore, maintaining that his prediction of 80 below zero was almost fulfilled this season, and he says some of those "birds" who doubted may wake up to find it confirmed before the first of May. C. O. DAWSON, of Ardmore giving A. Botsford, of Langdon, point by point how he will win the game, happening in the poultry game, confirmation of these theories being daily exemplified in Dawson's Utty Wyx notes, proving that the bird that lays is the bird that pays. SPENCER HUGHES giving Jack Fraser, of Calgary, some pointers on the new Ford Car, and about his 5,600 mile trip to California. "Hippo" says those capitalists sure enjoy life while touring the country. CHAIRMAN CHASE instructing Bill Saunders into the mysteries of the wallpaper business.

Prof. Reinhold Niebuhr: "We need, not less, but more moral sensitivity. Any tendency of thought which inclines to destroy the 'ought' in moral reasoning is dangerous."

Benito Mussolini: "Industry damages itself if it decreases the purchasing power of the masses."

R. B. Bennett, leader of the Conservative Opposition, in speaking of the Hunter in Yorkshire as any of the British Kellogg treaty, indicated a fine recipe for peace. "No cannons, no navy, no troops," said he. Which, it is easy to add, equals "No wars."

Slats' Diary

BY ROSS FAIRHART

"Friday—Sun time" got mad at the school teacher she thinks she is so blame smart. Today just beaur I failed to answer one of her questions she was asking me she said Arnt you a shamed of your parents. And I answered and replied No I am not a shamed of my ignorant I am proud of it. And she said off catty like Well you have got a little to be proud of my ways. She makes me tired.

Saturday—Got a valentine this a.m. even it was to late and I think Angie sent it. Who ever sent it had drawn a picture of a fish and then had rote down under the fish What is the difference between you and a fish. For the answer see the other side. I turn the paper over and it red. A fish nose can't to keep out of side.

Sunday—When Mrs. Glunt came to are house this evening she told Aunt Emmy that her husband had made her get rid of her washing Machine. Aunt Emmy wanted to no why so and said that it woked up her husband in the mornings.

Monday—Pa got stung on a nother advertisement this week He answered a add wiced see if you wood send a \$ Bill they wood tell youed a share way to make a 1000 \$ Pa hit sent in a \$ Bill and today they sent him a paper and told him to go and make a \$ on Monday and then repete it every day for a 1000 days. His wife is about 1/2 sore about it. He has sent told ma about it yet I gas.

Tuesday—The teacher told us that we must have a compassuln on Batel ships today. But I tudy meby she wood overlook it and tula a chanta on not making none up. But I got kep in for it. I wash she was like the collage perfomers and wood be about Minded ones and a w.

Wednesday—I and Angie went to Patymore, Confectionary this evening and I spent 20 on us and wood of spent more money she sed that was all the money she had with us.

Thursday—Well I diddent halt to go to school today. Las nite just for fun I poored the korn flakes in the box witch ma keeps her sope chips in and put the sope chips in the korn flakes box. When I had at my brack I I proved to ma I was pritty sick. So it wiked. Ma tried to warch her stocken but she never got wice. But I will say this sope chips don't taste as nice as they look to the nedy eye.

YAWN DISLOCATES JAW OF OTTAWA SALESMAN

OTTAWA—Almost time to get up, thought George Charbonneau, aged 26 years, 426 Queen Street, Ottawa. He stretched his arms and yawned, the most prodigious yawn he had ever yawned, for it dislocated his jaw. With his mouth hanging open he attempted to tell his family something

was wrong. His father hastily called Dr. Alfred E. Kuntz, who administered an anesthetic and brought the jaw back to its right place. George is a well-known automobile salesman in Ottawa, spent the rest of the day in bed.

TOO MUCH FISH

SAN PEDRO, Cal.—The Tonne, a 50-foot seine boat, was sunk by a school of sardines. The eight Japanese fishermen on board dropped a net for mackerel. The sardines, about 300 tons of them, swimming beneath the mackerel, filled the seine. Before the net times could be cut the boat capsized, and sank a few minutes later. The fishermen were rescued.

Women of Canada Will you Sell us your Recipes?

THE CANADIAN CROWN BRAND CORN SYRUP

BENSON'S GOLDEN SYRUP is the purest and most delicious syrup ever made. It is made from the finest corn and is free from all impurities. It is used for all purposes, and makes excellent candy. It is also used for all purposes, and makes excellent candy. It is also used for all purposes, and makes excellent candy.

CANADA CORN SYRUP

is a happy combination of high quality and reasonable price. It is a prime favorite with all who use it. It is a healthy and delicious food. It is also used for all purposes, and makes excellent candy.

MAZOLA

the economical salad and cooking oil is used for frying, roasting and shortening. It can be used over and over again for all purposes without carrying the danger from one food to another. It is also used for all purposes, and makes excellent candy.

YOUR favorite Recipe's... that simple, tasty dish that your family enjoys and your friends praise... may be worth money.

Here is your chance to find out. The Canada Starch Company will buy practical, easily prepared and inexpensive Recipes.

Preparatory to bringing out our new Recipe Book, we will pay \$5.00 each for the best fifty Recipes received from Canadian housewives, and \$5.00 each for the next best fifty. All Recipes must be mailed on or before May 1st, 1929.

The only condition is: The ingredients of your Recipes must include one or more of the Famous Canada Starch Products. All measurements must be by volume. Use ordinary measuring cups and spoons. Besides the ingredients, give a clear outline of the method of mixing and cooking.

Send in Recipes for Desserts: Cakes, Dishes, Pastries, Salads, Candy, etc. Recipes will be judged and tested by well known Canadian judges.

In case of duplication of the Recipes finally selected by the Judges, these received earliest will be given preference.

All Recipes submitted become the property of the Canada Starch Company and may be used as desired by them, and will not be returned.

For Swift, Accurate Drilling on Large Farms

John Deere-Van Brunt Double-Disk Grain Drill with Tractor Hitch and Power Lift

There's the John Deere-Van Brunt 26-5 Grain Drill that's designed to meet the requirements of large farms. Built big and strong, this drill will give you swift, accurate planting for many years to come. The large capacity Key-stone grain boxes are bound together thoroughly with steel straps inside and outside and with steel partitions which serve as braces; boxes cannot spread nor sag. Two tractor rods inside the box and heavy outside truss also prevent box from sagging or getting out of shape. Frame is built from extra-

heavy, high-carbon steel, thoroughly treated and braced, yet left flexible to conform to uneven surfaces without strain on any machine. The John Deere-Van Brunt Drill fits the ground. The Van Brunt power lift makes the John Deere-Van Brunt Drill a complete one-man outfit, whether tractor is used, or horses. It insures positive pressure on the furrow openers and a positive lift.

There are many other quality features of this drill, but we'd like to have you see them for yourself.

Drop in to our store the next time you're in town.

Hussar & District

Mr. and Mrs. Jensen and Ayler, and Mr. and Mrs. Leo Barnes and Betty Lee motored to Bassano on a business trip. Mr. and Mrs. Barnes are both far from well and went down for medical attention.

Mr. and Mrs. Paul Hulen, of Stand and, arrived at the home of Mr. and Mrs. Floyd Hulen on Thursday. They will remain with Mr. and Mrs. Floyd Hulen till able to move onto their own place, when spring opens up.

Mr. J. M. Wheatley was the successful candidate in the recent election for Councilman, and represents the Pleasant and Sunny Range districts.

Dr. Haworth was a business visitor in Hussar on Thursday.

Mr. and Mrs. Jim Brown have moved over near Hawkeye, and considerably nearer the Hussar district than their old location.

Mr. and Mrs. Ole Christensen have moved onto their own place near Duck Lake.

Mr. Harry Koenig motored to Calgary on Monday.

We are glad to report that Mr. and Mrs. I. O. LaGrange, who have both

been on the sick list for some time, are in much better health.

Mrs. Henry Hougau had to have the finger that has been troubling her so for some time, amputated on Wednesday.

The following attended the funeral of the late little Georgette Gourdine at Bassano on Wednesday afternoon: from Cluny, Mrs. Ernest Gourdine; Mr. Arthur Gourdine, Miss Germaine; and from Hussar, Mr. and Mrs. U. Gourdine and A. Horthill. Mr. and Mrs. Henry Barnard and Mr. and Mrs. Andy Kauffman. Services were conducted in the Roman Catholic Church by Rev. Father Armstrong. The most sincere sympathy of the community is extended to the family in their great bereavement.

Mrs. Dundas entertained a crowd of young people on Monday evening, with a bridge party in honor of Bill Bell, who spent last week and there.

Miss Francis Larson entertained at the Hussar residence with a dinner party on Sunday last, in honor of Win. Bell. The guests were: the Messrs. Jessie Elliott and Vivian Clifford, the Messrs. S. L. and Roland Christensen and Win. Bell. Mr. Bell went to Calgary on Tuesday with S. A. Falk.

Mr. and Mrs. Pete Fleury were called to Calgary on Wednesday by the serious illness of Mrs. Fleury's sister, Miss Alice VanLoon, who passed away on Saturday at her home in Calgary.

Emil Dittmore returned from the Calgary Hospital on Wednesday, February 27th, having been ill there for some time.

The following went to Bassano on Wednesday evening: Messrs. E. J. Bell, F. P. C. Farley, P. Mahoney, F. R. Reeves, W. G. Nelson, T. A. Hawkshaw, J. H. Huth and S. L. Lee. Several of them attended the meeting of the Harmony Chapter there, and after that, they spent some hours curling.

Mr. Chris. Armstrong went to Calgary for a few days last week.

Mr. E. N. Stiles was on the sick list at the beginning of the week.

Mr. and Mrs. W. J. Benn and family moved over from High River the first of the week to take charge of the Wheatland Farm.

Mrs. C. T. Armstrong went to Calgary on Thursday to meet Mr. Armstrong, who was returning from a trip to Seattle, and both returned by rail from Calgary on Sunday.

Mrs. Win. Kuehle has been ill for the past two weeks, but is reported better this week.

Jason Bell accompanied Ronald and William Benn to High River on Sunday.

Local Jottings

Mr. J. W. Reeder, of Tipton, Iowa, received a telegram from Senator Smith, W. Brookhart stating that seat had been reserved for him on the inaugural platform beside President Hoover. Mr. Brookhart met at Vancouver, Mr. Reeder and party, including two of his sons, Dr. W. Reeder and Dr. O. Reeder, both in Chicago, travelling on the Hoover Inaugural Special from West Branch. Mr. J. W. Reeder is the father of Mrs. E. E. Zerke, of Strathmore. He is now 52 years old, and she has just received word that he was able to be present at the inauguration of President Hoover on Monday, March 4th.

Mr. and Mrs. D. A. Perry had as guests over the week end, the latter's brother and his wife, Mr. and Mrs. McIntyre.

Mrs. Neil McDonald entertained at three tables of bridge Tuesday afternoon, when some local games were enjoyed, as well as a pleasant social time spent. Mrs. Geo. Jones was the fortunate holder of the high score. Mrs. J. Wallace received the consolation.

Radium-covered hooks that fish will be able to see in the darkness of the ocean depths, will be used for the first time by William Beebe in an oceanographic expedition to Bermuda, and will sail March 13th from New York. Another innovation planned is the attachment of sounding wires to fish nets to enable those above to know when a catch is made. He said he planned a more thorough combing of the ocean bottom than ever had been made before. "Now, what do you know about that," said Jim Moran, when shown the above news item. "I sure would like to get one of those hooks without Alex Gray knowing anything about it, and then when fishing season opened I would take him to Cardigan. After I had completed the day's sport, and we would weigh the day's catch, Alex would turn 'fish with envy'."

Friends of Mr. and Mrs. B. Larsen, Nigelnagle, are extending congratulations to them upon the birth of a daughter at Miss Merchant's Hospital on February 27th.

Last Friday morning Oliver Wright met with a shooting accident, which might easily have proven fatal. As he was his usual custom he went down to the barn to feed his hogs. For some time he has been having trouble with dogs killing his chickens, and he had provided himself with a rifle, with which he intended to destroy some of these intruders. While handling the rifle it went off, the bullet passing very close to his heart. Fortunately he was able to walk up town where he met Mr. Garrett, who assisted him to get medical treatment. He is making a fair recovery, and is recovering, and unless some complications develop, he will soon be quite convalescent.

Mrs. Nels White invited a few ladies Monday evening to enjoy a game of Bridge while their husbands were discussing matters pertaining to the business of the Lodge. That's what they said they were going to do.

A meeting of the executive of the L.O.D.E. will be held at the home of the Resident, Mrs. J. French Friday at 2:15 p.m.

Charles Giroux is confined to barracks suffering from an attack of rheumatism in the arms and legs.

Municipal District of Bow Valley, No. 219

NOTICE OF SALE

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that Grey Stallion, weight 800 lbs., no visible brand, was impounded in the pound kept by W. Fawkes, Namsala, located in Namsala, on the 21st day of February, 1929, and that the said animal was sold on the 4th day of March, 1929, to H. Buchman, of Namsala, and that the said animal may be redeemed by the owner, or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of said animal.

For information apply to the undersigned.

DIAMOND MERCHANTS - CALGARY

President Hoover may have thought he was some "real pumpkin" on inauguration day, but he had nothing on Lloyd Saar, when Dr. Giffen assisted the stork in bringing a 9 1/2 lb. boy to his home on the same date.

Homer Nelson has disposed of his dairy business to S. C. Sorenson. Mr. Nelson has made many friends in Strathmore during his residence here who will join in wishing him well. It was not made any definite plans to far away that visits back and forth may not be made.

Mr. and Mrs. B. W. Gardner, of Calgary, were in town on Sunday.

The Cricketers will hold a general meeting in Patmore's store on Thursday, March 14th, at 2:30 p.m.

About twenty young people held a pleasant surprise party for Anson Chas. at his home on Friday evening, March 1st. What was the evening, during the early part of the evening, after which a dainty lunch was served to the many guests. The remainder of the evening was spent in dancing, which was carried on into the early hours of the morning. High honors in cards were won by Miss Helen Beeley and Anson Chas., while Miss Alice Garrett and John Garrett carried away the consolation prizes. The party broke up with the singing of "For He's a Jolly Good Fellow," and "Auld Lang Syne." A most enjoyable time was had by all.

Grades VI and VIII gave the Composition contest sponsored by the Hussar. Bulletin.

Miss Eleanor Moffat spent the week end at the home of Mrs. L. Snyder.

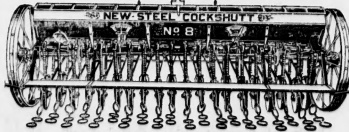

Mr. and Mrs. Lester Snyder motored in to attend the Masonic party on Friday.

Perfect Performance

Someone has said that a will is the crowning act of foresight, and affection which a man is privileged to perform for his family.

But the act of making a will is not all.

Of paramount importance is the exact carrying out of its provisions.

Consult this modern Trust Company without delay, on this vital subject.

THE TRUSTS & GUARANTEE COMPANY, LIMITED

ROSEBUD

The entertainment at the Church Thursday night was a big success. Miss Barber was all we expected. Her readings and sketches kept the smile over on the face. The Rosebud Ladies Aid made about twenty dollars from the entertainment. The next event by the Aid will be a Food Sale and Tea on Saturday, March 16th.

The U.F.A. annual dance is only ten days away, March 19, the date, and the Georgian Orchestra the music.

A daughter was born February 26th at the Drumheller Hospital to Mr. and Mrs. L. P. Krahen, who are farming in the C. X. district.

Mr. and Mrs. Buzzard, son Rufus, and Mrs. Helen Parker, attended the "Dumbbell" in Calgary last week.

Merle Jones and Dale Brunner were in Calgary over the week end. They expected to take a trip in an airplane.

WEDDING

HYMAS — FOSTER WEDDING
Pietreque in its simplicity was the marriage of Kathleen Margaret, eldest daughter of Mr. and Mrs. Albert G. Foster, and Mr. Howard Gilbert Hymas, son of Mr. and Mrs. W. E. Hymas, which was solemnized in the Central United Church at 5:15 on Wednesday evening, Rev. H. W. Aitson officiating. Friends and guests banded the altar, where, on either side, tall baskets of yellow daffodils and mauve iris and tulips were placed in decoration. The guests were marked off with tulle bows leading a yellow daffodil at each place.

Entering the church on the arm of her father, who gave her in marriage, the youthful bride made a charming picture in her gown of white bridal satin fashioned in period style with yoke of Chantilly lace, long, tight-fitting bodice, long sleeves, and skirt sweeping to graceful ankle length in the back. Her veil of white, net held by a pretty half-crown of Chantilly lace in soft points, with clusters of orange blossoms behind each ear. At the foot of the veil the same lace was used in a wide band. She wore a rope of pearls, the gift of the bride groom, and white satin shoes, orange ribbon, which she sprays of orange blossoms, completed her costume. Her shower bouquet was of Columbia roses, orchids and lily-of-the-valley.

Miss Helen Foster, sister of the bride, and Miss Enla Caraculian, the two bridesmaids, dressed in frocks of georgette fashioned alike with long tight-fitting sleeves, long bodices and tiered skirts dropping to the heels in the back. Miss Foster wore yellow, with yellow satin shoes and bands of yellow tulle held across the back of the head with yellow, mauve and green flowers. Miss Caraculian chose soft green, with matching shoes and bands of green tulle held in place with the same scheme of flowers. From the shoulder of each bride fell a graceful bow of mauve ribbon and each carried a bouquet of yellow daffodils and mauve iris.

The bridal maids throughout the ceremony were played by the bride's sister, Miss Lillian Foster, who read

the march from Lohengrin as the party entered, and the "Maiden" wedding march as they left the church. During the signing of the register Miss Alys Wilson sang delectably "At Dawning".

Mr. Wilfred Hymas, brother of the groom, acted as groomsmen, and Mr. Fred Darroch and Mr. Horace McClung were the ushers.

Following the ceremony, a reception was held at the home of the bride's parents, Quebec avenue, where ferns, yellow daffodils and mauve iris were used in decoration throughout the attractive rooms. Mrs. Foster, mother of the bride, in a smart gown of old transparent velvet, with trimmings in two blending shades, and Mrs. W. E. Hymas, mother of the bride groom, in a black georgette model with insets of pale pink georgette and satin trimmings, received the bridal party. Mrs. Foster wore a corsage of Butterflies roses and violets, while Mrs. Hymas wore sunset roses.

At the beautifully appointed table, centered by the three-tiered bride's cake, surrounded by four tall pink tapers and small silver vases of roses, Mrs. H. E. Foster and Mrs. N. Caraculian poured tea and coffee, and Mrs. J. H. Alexander and Mrs. D. W. Delwiler cut the loaf.

Later, Mr. and Mrs. Hymas left for San Francisco, where the honeymoon will be spent, the bride traveling in a coons brown frock with brown French needlepoint coat, trimmed with ermine and dyed to match, and small brown hat of rough straw, with points on brown felt on the soft crown. Brown suede shoes and a brown jacket bag completed the ensemble—Calgary Herald.

On their return Mr. and Mrs. Hymas ranch south of Rosebud.

ROCKYFORD

Don't forget the St. Patrick's Dance in Rockyford Hall on Friday, March 15th, under the auspices of the Catholic Women's League. Everybody welcome.

A most interesting event of curling was witnessed on Monday evening by a large crowd, when the finals of the Curl Competition were played. This set's rink against McKinnon's for the first prize was a close game, being a tie in the eighth, but Bissett scored in the next two ends and won by a score of 8 to 6. The consolation prizes were contested by Horton's and Gillespie's rinks. The spectators were also enthusiastic, but the score was more one-sided, and ended 11 to 4 in favor of Horton. The game between McKinnon and Hultand on Wednesday was close. In the tenth end the score was 10 to 8 in favor of McKinnon.

A large crowd gathered at the United Church on Tuesday morning to pay their last respects to Teddy Pomroy, eldest son of Mr. and Mrs. L. W. Pomroy, who died in the Holy Cross Hospital, Saturday, February 23rd. The banks of wreaths and sprays of flowers showed in a small degree the sympathy of the community, and how the little lad had won his way into every heart in his seven short years. The sympathy of the entire district is extended to Mr. and Mrs. Pomroy and relatives in their sad bereavement.

The Masonic Lodge and a number of their neighboring brethren celebrated the dedication of their new hall on Tuesday afternoon, when four Grand Lodge officers, from Calgary, and the Grand Master, assisted with the ceremony. Six o'clock lunch and a dance after were indulged in by members and their ladies.

The postponed Valentine meeting of the Rockyford Ladies Club, met at the home of Mrs. Henson on Thursday afternoon, with about forty ladies present. After the roll call, answered by Valentine verses, a discussion took place on the new Baker School building, which was read by Mrs. Rupp. A very

enjoyable lunch was served by the hostess, assisted by Mrs. Wise and Mrs. Ruppel.

A joint meeting of the different schools in the district was held in Rockyford on Saturday, March 2nd, to discuss the Baker School Bill and send a reply to Mr. J. C. Buckley, member of the Provincial Parliament for this District.

Owing to so much sickness in the district, the Trail Branch of the Progressives have had to postpone their Father and Son Banquet twice already. They have now decided on Friday, March 8th, for this event, and hope to have Mr. Leitch, of Drumheller, with them as speaker for the evening.

Mrs. Archie McBride, of Endang, and her young son, Billy Boy, are visiting her sister, Mrs. Gibson, for a few days on their return from Calgary, where Billy has been undergoing an operation on his neck.

Ducella Brown is recovering from her mastoid operation quite nicely, and we hope to see both she and her parents in our midst at an early date.

Everyone is glad to see Mrs. Irish back home after her five months' sickness in Calgary. Here's wishing her a speedy recovery to perfect health.

Auction Sale

Having received instructions from W. P. and Percy Riley, of Rockyford, I am holding an Unreserved Auction Sale of all Stock, Household Furniture and Effects, and a full line of Farm Machinery, contained on their farm, 5 1/2 miles East of Rockyford, on

Consolation
1st—Four tons coal, donated by Alberta Pacific and Home Grain Co.
2nd—Four saws, donated by Robin Hood Mills, Calgary.

Vice-President Competition
Cup, donated by J. H. McGuire, Vice-president.
1st—Four auto rugs, donated by A. Sargent.

2nd—Four pearl knives, donated by Carpenter & Gillespie.
3rd—Four pipes, donated by H. S. Bay Co.

4th—Four clear lighters, donated by De-Prentiss Consignations.
Vice-President Consolations
1st—Four sweaters, donated by Parrish & Helmbecker.

2nd—Four boxes cigars, donated by John Gablehouse.
3rd—Four enamel roasters, donated by D. R. Poole.

4th—Four sun visors, donated by F. W. Gibson.
Third Man Competition
1st—Four pairs silver salt and pepper, donated by Carlton Hotel.

2nd—Four cases pipes, donated by Conway's, Ltd.

Here And There

...coming down a timber wolf with a rifle in his mouth. The wolf was a usual sport tried near North Bay recently when a 30 point specimen, Engineer M. Lafontaine on rounding a curve saw the wolf on the tracks a short distance ahead, and opening the throttle, succeeded in striking the beast with the pilot steps. Conductor W. G. Weller ran back and finished off the animal with a shot. A bounty is paid on wolf skins by the government as the animals are a menace to game and livestock.

Canada now holds the world record for winter cruises. With one cruise around the world, another to South America and Africa, a cruise to the Mediterranean and three to the West Indies this season, the red and white chequered house flag of the Canadian Pacific is seen in nearly every important port in the world. Next season another cruise is to be added, making two to the Mediterranean, and extensive additions will be made to the itinerary of the "Empress of Australia" on her seventh cruise around the world, starting December 2nd.

The interest of the Prince of Wales in Canadian affairs was demonstrated recently when following his speech at Mahon House in London, he visited the British Industries Fair, and spent some time in examining the exhibits of the Canadian Pacific Railway. He took great interest in the moving train models and commented upon the artistic nature of the round and the world class working model. Her Majesty the Queen, and Prince George passed along the same camp, and showed great interest in the displays.

One of the most colorful and interesting events of the winter season in the west scheduled to take place in Regina on March 20-22 is the Great West Canadian Folk Song Festival. Folk songs, ballads, and handicrafts will be held in the Saskatchewan Hotel in Regina. Over twenty nationalities will be represented in the musical and dance programs and in the exhibits of handicrafts. The festival will be the first of its kind in the west from the east will be present. The concert will be arranged by the Canadian Pacific Railway in co-operation with the Conservatory of Music of Regina College.

TREASURES HIDE IN FARM WASTE, TESTS INDICATE

WASHINGTON.—The farm products which go to waste today may be the chief source of the farmer's income tomorrow, according to the agricultural service of the United States Chamber of Commerce.

All the hulls, shells, wastes, straw and stalks that go into the rubbish pile or the bonfire promise eventually to be changed into important by-products by the legions of the twin magicians, chemistry and physics the survey points out.

At the same time the Chamber of Commerce issues a warning that at present there is a long way between

turning cornstalks into newspaper and of putting such a synthetic product into competition with the available supplies of wood pulp cut from the forests. This is true of many of the other by-products for which modern science is developing new uses. After the change from the raw product into the commercial element has been made, the problem is to put the new process on a competitive basis with the old one, the survey points out.

Two dozen valuable products, ranging all the way from alpha cellulose to xylene can be made from cornstalks, the survey points out. The corn cob can be made to yield 32 products. Face powder or gum

powder can be created alike from the pith of the cornstalk. The same material also offers rayon to clothe the body, cellulose for building material and other unexpected articles.

"Straw, oat hulls, sugar cane bagasse and flax tow hold out possibilities of being transformed from troublesome wastes into valuable raw materials," the report states.

Summarizing the situation, the report says: "Changed conditions and new demands may convert the waste products of today into valuable products of tomorrow. In this transition, however, the fact must be remembered that in aiding one class of farmer to utilize their farm products to better advantage, other classes may be more or less seriously disturbed."

Honey as an anti-freeze solution is an illustration of how farm products may be turned to novel ends. An indorsement of this mixture is made by the Department of Agriculture to coincide with the statement of the Chamber of Commerce.

HEARD ON THE STREET

King Kelly asked a party of three to his home for an evening's play. When the guests had gone, the host was appropriately vicious, having dropped a fiver. As he was leaving the room he noticed a silver teaspoon on the carpet. Kelly picked it up and glowered at it. "I wonder," he muttered, "which of them has a hole in his pocket!"

"What do they mean by the 'itching hour'?" asked Jim Gannon.

Erin Whitehead: "Do you know? That's the hour when the wife greets you with 'Which story is it this time?'"

The Boy Scout proudly announced at the breakfast table that he had already done his "good turn" for that day.

"You've been early at it this morning," said his father.

"Oh, yes," was the reply, "but it was

quite easy. Old Mr. and Mrs. Smith were on their way to get the 7.30 train and they were afraid they would miss it, so I let the bulldog loose and they arrived at the station just on time."

When the colored couple were being married by the clergyman and the words "Love, honor and obey" were spoken, the bridegroom interrupted: "Read that again, eh? Read it once more, so's de lady kin hear de fall solemnity ob de oceanin'. I's been married befo'."

Very Particular Lady: "I wish you would give me two seats in the coolest part of the theatre."

M. S. Hirtle: "Certainly, here are two in Z row."

"Say, looky hya, Rastus, you know what you did? You is gitt' away to a week and day ain't a stick of wood for de house."

"Well, what you'll whinin' about, woman? I ain't takin' de axe."

"Look here, Jean," said Jim Swan confidentially, "Frank lost a fiver to me at poker a week ago, and hasn't paid up yet. Think I'll write Elm a stiff note and ask for the cash."

"No, don't do that," counselled the more cautious Jean, "he may have simply overlooked it. Drop him a note, please, a little reminder."

"All right," grumbled Swanson as he reached for the notepaper, "per haps you're right." For some moments he wrote industriously, then he paused and favoured Jean with an uncertain frown. "I say, Jean," he said, "is there a 'c' or a 'k' in 'skunk'?"

Tommy was called in to look at the triplets, just arrived. After looking at them for quite a while, he gazed up to his mother and earnestly enquired: "Mum, which two are you going to draw?"

And how's everything coming in your arithmetic class, eh?"

"Oh, fair," replied the little girl. "I can add the zeros all right, but I

don't seem to do so well on the other figures."

Children's party hostess: "Won't you have another meringue, Betty?" Betty (remembering her promise not to answer "yes"): "Well, the idea is not repugnant to me."

It was her first attendance at a hockey match. Turning to Harry Miles she asked: "Why did they stop the man and knock him down as soon as he got the puck?"

"Because he was trying to score."

"But isn't the object of the game to score?"

"Yes; but he's on the other side. He was going the wrong way—that is, toward the wrong goal."

"Well," said the girl, "I don't see why they should knock him down for that. Everybody makes mistakes."

Aunt Het says: "Women can keep secrets as well as anybody, but I ain't never seen one that could wash her hair without tellin' somebody befo' she nigh."

First Landlady: "I keep my lodgers longer than you do."

Second Landlady: "No, you don't. But they're so thin they look longer."

Uncle Bob was the little boy's favorite uncle and he was going to be married.

"Eldobber," said the little fellow: "the last three days they give them anything they want to eat, don't they?"

Spence Hughes: "This car has eight cylinders, four wheel brakes, water cooled—"

Prosperity: "That does not interest me. My wife wants a pearl gray car with a nice vase for flowers, and fitted with wireless."

Smith: "That fellow is too slick for me. Sold me a lot that was two feet under water. I went around to demand my money back."

Jones: "Get it!"

Smith: "Get nothing. He sold me a second-hand gasoline lunch and a copy of Venetian Life by C. D. Waters."

A duchess owed a bill to a milliner, and the latter's little daughter was sent to collect it.

"Be sure to say, 'Your Grace,' to the duchess," said the mother, and the child promised to remember.

When, after long waiting, she was ushered into the room, she saw the duchess, the little girl made a low curtsy, and then folding her hands and closing her eyes, said, softly: "For what I am about to receive, may I be truly thankful?"

"George put in three whole months worrying over which of two girls he would choose for his wife."

"Well, which did he choose?"

"When he finally got ready to propose, he discovered that neither of them would have him."

The class in physical geography was being examined.

"What are the chief movements of the earth?"

"Exports and imports," was the first answer obtained.

He: "We were made to love each other."

She: "Well, why don't you begin?"

Ted Schulte says: "The height of conceits for a Scotchman to buy half a pound of ham and then demand a free booklet, 'Sixty Ways to Serve.'"

A firm of manufacturers, having written to one of their creditors, claiming settlement of an account long overdue, are said to have received the following reply:

"Every month we make a pile on our table of all accounts to be met, and from this pile we draw at random six statements which we pay. If we have any more of your impudence, you won't get in the shuffle next month end."

Customer: "I want a pair of silk stockings for my wife."

Salesgirl: "Sleazy?"

Customer: "My good girl, if she was here I'd let her buy them herself."

Here Are The Facts READ THEM

Many people buy without investigation of facts and on snap or emotional judgment. Every year it is estimated a million car buyers change their ideas on their car after they have had it six months. Consider the following facts before purchasing your next car—and then decide for yourself which car offers the most value for the money.

1. Do you know that no car under \$2,000 outside of Ford is putting on Houdaille Double Acting Hydraulic Shock Absorbers as standard equipment?
2. That no car under \$1,500 except Ford has triplets shatterproof windshield glass as standard equipment.
3. That Ford is the only car under Buick with three-quarter floating axle.
4. That Ford is the only car under Buick with Torque tube and Radius drive construction.
5. Ford is the only car under \$1,500 with five-bearing transmission.
6. That the New Ford has its roller and ball bearings in its chassis.
7. Ford is the only car under \$1,500 with three-quarter irreversible steering system.
8. That Ford is one of few cars built today that has five-spoke wheels as standard equipment.
9. That Ford is the only car under highest priced cars with silent slide-back, internal expanding all-enclosed system.
10. That wrist pins in motor are machined to .0002 and are of full floating type.
11. That aluminum alloy pistons are balanced to an accuracy of two grams. This is the finest balance of any piston in any car regardless of cost.
12. That when car is traveling 50 miles per hour—the revolutions per minute of motor is only 2053.
13. That gear ratio of New Ford is 3.7.
14. That the actual road clearance of New Ford is 9 1/2 inches—highest of any American stock car.
15. That New Ford car has proven itself in public hands this past year as one of the finest performing cars ever built—from standpoint of pickup, hill-climbing ability, speed and riding comfort.
16. That the New Ford car has proven itself beyond any doubt as the most wonderful winter car ever built. It starts easily in cold weather and bucks snow beyond belief—ask the owners.
17. That service and dealer responsibility behind the New Ford is unequalled by that of any other car built.
18. That New Ford holds the road at high speeds as good as cars being sold at highest prices.
19. Lastly—That the New Ford stands out supreme in its field—in mechanical design, specifications, equipment, quality and precision workmanship.

A 50,000 ACRE WHEAT FARM

(Continued from front page)

here it goes directly to market. The company owns an elevator at Hardin, but this is used largely for emergencies and to make it possible to keep wheat of high protein content separate from the rest; an important matter because such grain usually brings a premium over grade quotations.

The Campbell farm might more appropriately be designated as "farm," as there are several units of from 10,000 to 20,000 acres each. Each unit has its machines, shops and quarters for the men, but all are operated under Mr. Campbell's supervision.

There are no "farm hands" on the Campbell farm. The men who work there are mechanics. They work 16 hours a day. Wages are on a definite scale, based upon the kind of work. Bonuses are paid at the end of the season for extra mileage. The bank houses on the different units are comfortable and strictly sanitary. Food for the men is prepared under the direction of a trained dietitian and diets are regulated to the kind of work the men are doing. Every attention is given to the comfort and well-being of the men employed and more, and more, returning each season to work on the Campbell farm.

Machinery Well Cared For Perhaps the most interesting feature of the Campbell farming enterprise are the vast machine shops located at central headquarters in Hardin. Here, with every modern device for handling and repairing machinery, all mechanical equipment used on the farm is completely overhauled each winter. As a result, the average life of tractors on the Campbell farm has been just about trebled.

Regardless of whether this is the ultimate type of farming in this country and without attempting to measure the influence which Mr. Campbell's methods are having, there are certain important changes in wheat farming methods in Montana which indicate a drift toward the large-scale specialization which is exemplified. There now are more than 2700 combine harvesters in operation in Montana and in areas adapted to specialized wheat production farm units are increasing in size. The average titled acreage on a number of successful tractor-wheat farms being studied by the Montana experiment station, increased from 588 acres in 1924 to 1265 acres in 1928, and according to present plans

the average titled acreage on these farms will be more than 1800 acres in 1929.

Method Adopted Generally Last year grain ripened unevenly in many parts of the State and Mr. Campbell's system of window harvesting came into quite general use. No figures are available on the cost of production on the Campbell farm, but there are farms in the State where low-cost methods are being used on which wheat is being produced at less than 2 1/2 man-hours per acre, as compared with a most of from 8 to 12 man-hours under former methods. Mr. Campbell's method is to raise 1,000,000 bushels of wheat in one year—already has greatly exceeded the halfway point—but whether he attains this goal does not matter. The significance of his operations is that this type of revolution in wheat production methods, a revolution which is spreading throughout the world.

LARGEST SURPLUS YET EARNED

MONTREAL.—An official statement of earnings and expenses of the Canadian National Railways for the year 1928 was issued at the headquarters here.

Exclusive of the lines east of Lewis and Diamond Junction and those comprised in the Central Vermont, the Canadian National Railways had gross earnings in 1928 of \$276,631,921.22. This total compares with gross earnings in 1927 of \$246,714,371.49 showing an increase in gross earnings during 1928 of \$29,917,549.73, or 11.24 per cent over the previous year.

During the 12 months of 1928 working expenses for the National system amounted to \$218,248,241.68, as compared with a total of \$203,515,684.29 during 1927, an increase of \$14,732,556.99, or 7.34 per cent.

As a result the net earnings of the National system for the year 1928 reached a total of \$58,383,679.54 as against net earnings in 1927 of \$43,408,681.11, an increase during 1928 of \$14,975,000.43, equivalent to 34.50 per cent.

Because of these favorable financial conditions the operating ratio of the system during 1928 was reduced to 78.89 per cent, in comparison with 81.75 per cent for 1927.

Calvin Coolidge: "A spirit of generous consideration is a more certain defense than great armaments."

ELWOOD

School was closed all last week owing to an outbreak of scarlet fever.

Harry Akerman, of the Harwood district was down here last week looking for barley.

J. Drummond has one of the new Chevrolet Six Sedans.

The boys at school killed a sopher on February 20th. Seems rather early for the little fellows to be out, all though it is raining today as this is written.

Bill Frackher and the Hanson boys spent last Saturday afternoon at Albert Desmet. Skiing was the popular sport.

The Namaka U.F.A. and U.F.W.A. met last Thursday at the home of Mr. and Mrs. L. F. Pinkerton. Only routine business was dealt with. They decided to write Mr. E. J. Garland, M.P. at Ottawa, re getting rural mail delivery for this district either from Namaka or Strathmore. Mr. and Mrs. Garland.

Advertised Goods Are Lower

ADVERTISING turns over stocks rapidly means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This, also, is generally true: You will find better goods better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profits on increased sales. Advertising is easy—it is simply saying in writing what you say to the customers in your shop. Turn over stocks quickly, if you would make more money.

A THOUGHT FOR THIS WEEK

They that deny themselves will be sure to find their strength increased, their affections raised, and their inward peace continually augmented.

—Matthew Arnold.

PLEASE BURY TRACKWAY BILL VERY COMPLETELY

A few financial promoters of Calgary are busy endeavoring to secure the sanction of the Alberta Legislature to their proposed bill for a right of way to Banff upon which to build a private owned highway, whereby they would have the right to barter back to other times and collect from all users a certain specified toll.

The Brownlee Government quite properly refused to sanction this scheme last session, and it is to be hoped that this year that it is no longer.

tain voice will these aspirants to serve the public be told that there services so gratuitously offered cannot be accepted.

The Brownlee Government has very materially improved the Banff Highway, and no doubt will give attention to it each succeeding year, and keep same in good repair.

The Government, through the extra money which will be available from the increased gasoline tax, will not specifically earmarked for that purpose, will in the main, find its way into the fund to improve roads, and the doubtless Banff road will receive the consideration.

The going back to the plan of collecting nickels from tourists is so the most serious of the Government making such a request.

Any of the "Old Timers" who have and to put up with such an annoyance and inconvenience in Ontario and other centres to have to stop every few miles and "pay", if given an opportunity would give short shrift to the request of these overzealous gentlemen, who are so willing to be public slaves.

It is to be hoped that the Gleichen representative, John C. Buckley, M.L.A., has not, or will not, lose any opportunity to "speak the guns" of these kindhearted citizens, and see that their bill is preserved among the specimens of "what might have been".

The services of C. W. Chase, who is a most capable undertaker, should be obtained, and a fitting interment given to the Trackway's Bill.

Thank you, Mr. Buckley.

PARTY CAMPAIGN FUNDS CREATE REAL MENACE

The Red Red Advocate, in referring to the political troubles in Manitoba affairs, says:

The use and solicitation and acceptance of party campaign funds, especially in the cities, is a danger point for all administrations. Premiers will have their hands full if they endeavor to personally supervise all branches of the party who are willing to accept funds from power interests. Liquor interests, or on the arrival of the visitors they were served tea at the rink, and following the games the guests were all invited to a very delicious turkey dinner. Some remaining over for the capital which are added to the stock together, big men having stock in 25 to 100 companies which assist, support and protect one another because of these point interests, should be replaced by the more democratic system of public ownership and state operation and control.

WATER AND MINERALS FOR POULTRY

By the Alex Taylor Hatchery, Winnipeg.

We think of feed primarily in the production of eggs, and sometimes forgetting, however, that the eggs are composed of 65 per cent water. A liberal intake of water will increase egg production by stimulating feed consumption and giving the necessary for egg formation. Warm water is one of the primary essentials of winter egg production. When the flock goes off feed in a cold spell, egg production drops considerably, this is caused by the water being too cold or none at all. Give your hens lots of warm water and have them produce eggs when prices are high. Over one-third of the sold part of a hen's egg (that is one-third of all the egg except the water it contains) is composed of two minerals—Lime (Calcium) and Phos-

phorus. They are found in very small amounts in most farm feeds. The other two-thirds are made up chiefly of carbon, nitrogen and sulphur, these minerals are abundant in your ordinary feeds.

Poultrymen have long known the importance of lime for egg shell, and know the need of phosphorus in producing eggs. Oyster shell, this natural mineral feed is produced from vast deposits of lime and phosphorus in the exact proportions suited for poultry needs (Tri Calcium phosphate is a food). Oyster shell is free from conglomeration of chemicals or drugs. It is food and should be used as such. Use Oyster shell in your poultry mash and feeds, it builds up bones in your young chicks, develops large frames for heavy egg layers, supplies the needed egg producing material and makes hard-shelled hatchable eggs. Mix 5 pounds to every 100 pounds of mash. Have a supply of clean oyster shell in hopper at all times.

Charcoal is very essential for the health of your flock as it removes gases from the grain and sterilizes the food consumed. One pound of powder charcoal mixed in 100 pounds of mash will help to keep your flock in a healthy condition summer or winter.

Grit is necessary for poultry as they have no teeth and should have a hopper with clean grit at all times.

NAMAKA

Miss Annie Huntington, of Calgary, visited at the home of Suttien and Pawks over the week end.

At the whist drive held on Wednesday of last week, Mrs. Beland and Mr. Lewis carried off the winning numbers, the consolation going to Mrs. Pawks and Mr. A. Peterson.

Miss Phillips spent the week at the home of Mrs. F. Wheeler.

Miss Watts is spending a few days with her mother.
